WIDE FLUCTUATIONS MARK TRADING IN WALL STREET.

CLOSE IS NEAR THE PRE-

VIOUS NIGHT'S LEVEL.

Prospect for Extremely Dull Market Viewed With Satisfaction

by Careful Financiers.

New York, June 16.-A comparison of today's last prices with those of last night gives no idea of the wide fluctuations in the day's market. The principal speculative favorites this morning were from 1 to over 2 points lower than last night, and over a ange running from a fraction to between | which price all of the transfers were made. 4 and 2 points of the low level touched on

Wednesday last in many cases. The day's movement, while generally small, therefore, represents a very substantial recovery from the low point of the day. But when it was attempted to rush prices up late in the day to much above last night's level pressure to sell was renewed and prices again fell back. The closing, however, was firm, but very dull and near the top level. The inference drawn from the action of the market was that professional speculators tested the market on the short side, and encouraged resistance in a substantial buying demand. The buying by the bears to
cover was a substantial element in the
rally, and when the attempt was made to
carry the movement further pressure to
sell was again encountered, in addition, account must be taken of what looked like
further liquidation during the early hours
this morning, the weakness of yesterday's
market having awakened fears that a further extensive decline was in prespect.

HOPE FOR DEMAND.

It was evident also that when prices ap-

It was evident also that when prices approached last week's low level, buying of investment character again came into an investment character again came into the street. The deduction drawn by the average operator at the end of the day was that attacks on the market would encounter substantial buying power, and that the urgent liquidation of the character in evi-dence last week was no longer overhanging the market.

dence last week was no longer overhanging the market.

On the other hand, attempts to buil the market, aside from the probable lack of money resources, seemed to encounter heavy selling at the high levels. The prospect thus indicated of a dull and sluggish market is viewed not without satisfaction in financial quarters generally. That the resources which have been accumulated by such a painful process of liquidation should be immediately put back into speculative use, with the needs of the coming autumn still to be met, is a course generally disapproved by bankers and those with large property interest. During the early decline to-day the suspense over the probable decision of the coal miners' convention was of much influence. The final action of the convention, and the apparent improvement in feeling of the two sides to the controversy which has resulted from the incident, is regarded with vast satisfaction.

ANXIETY OVER CROPS.

ANXIETY OVER CROPS. Anxiety was expressed over the crop news during the early part of the day, but the weekly crop report and the reaction in wheat and cotton served to relieve this somewhat. Atchison was conspicuously weak and rumors of a possible reduction in the dividend continued to circulate. The payment of an installment of the subscription on the consols issue, calling for \$15,600,600 in the London market, added to the depression there and was reflected here. Sterling exchange also ruled strong, with a threat of further gold exports. The recriminations incident to the lawsuit over the United States Shipbuilding reorganization and the tone of the testimony in the suit against the lease of the Metropolitan Street Rallway by the Interurban Company were the subject of wide discussion in Wall street and caused a very unfavorable impression in the market. The suicide of an official of one of the banks was also used during the morning to induce selling of stocks, but the prompt assurance that no financial irregularities were involved took away that effect. The reduction in price of copper weakened Amalgamated in the early dealings, but the later announcement of a further cut in the price of pig iron did not interrupt the late recovery of the market.

Bonds showed early weakness and recovered in sympathy with stocks. Total sales, par value, \$2,300,000. United States new 4s advanced 35 per cent on the last call. weekly crop report and the reaction

Yesterday's Bank Clearings. Wall Street Gossip.

Reported by the Commercial Advertiser through Francis, Bro. & Co., No. 214 North Fourth street: New York, June 16.—Foreign—Americans were weak in London to-day, Fears of another antiractle strike were expressed. The coppers also were weak. Prices came lower and the arbitrage houses sold on balance in this market about 49, 609 shares of the general list.

Baltimore and Ohio-Much of the selling of Baltimore and Ohio came from commission-houses, which were buyers of the stock on last week's slump, and were discouraged by the entials that there was intention to raise the dividend rate this year. The borrowing demand for Baltimore and Ohio would show a good-sized short interest in the stock. A Western Interest which advised purchases of Baltimore and Ohio without mentioning names, said the buying to-without mentioning names, said the buying to-

day was of a much better character than the selling.

Atchison—There was renewed bear pressure on Atchison at the opening. Harris Gates & Co. sold 5,000 shares, and they were followed by the room traders. The belief that the rhort interest in the stock was very large led stime of the room traders to cover, and when they found a small supply for sale in the afternoon they scrambled for it, causing the sharp rally.

The Close—The room short interest discovered in the last hour that the supply of stock for sale was smaller than was comfortable. Tais, and the task of 'toe much company on the bear side,' together with the better labor cutlock in the anthracite region and the heavy purchases by such commission-houses as E. & C. Enndelm and Kneth, Loeb & C., led to a covering makement by the traders, which ralled prices charrily, Louisville and Nashville was the leader of the rally, but the general list shared in it. Sentiment showed a distinct improvement at the close.

SUMMARY OF ST. LOUIS

of yesterday's grain market. Wheat was rather dull throughout the session. There was an advance at the opening, in response to higher cables and reports of executive than in European countries, but there was not enough domestic interest to keep the boom goes Later the foreign advances were lost and for a time offerings were free. In the second hour reports of drought in the Northwest and bullish polyices from the South and South-west strengthened the market. In the last hour the strength of corn also aided the upward movement. The world's available supply decreased during the week and local and primary receipts were small.

Corn was higher at the opening., Cables were strong and Chicago traders were good buyers of the active options. On the receipt of favorable weather news from many sec-tions of the belt offerings became more free. The Illinois State crop report caused a sharp reaction and buying continued brisk until the close. July wheat opened 14c off and closed 14c off. September opened 14c off and close1

July corn opened 1-16c up and closed 43% up. September opened 1-16c off and closed

July outs closed unchanged. Receipts of produce were light and prices were generally firm for fruits and vegetables. Activity in local securities was mainly in tractions, which were strong and higher, Yesterday's bank clearings were \$6,222,907, balances \$529,561. Discount rates were steady

Spot cotton was unchanged in the local market. CORN ASSUMES LEAD

OF BREADSTUFF MARKET. ILLINOIS REPORT STARTS

THE BUYING.

Wheat Has Moderate Support, but Is Sustained by Damage Reports.

Corn was the strong spot in a moderately active grain market yesterday. Wheat and oats were under selling pressure. Early wheat news was bullish and the market adon foreign gains and excessive moisture in Europe. A recession at Liver-pool caused a decline here, but there was a rally on Northwestern drought and damage | per reports from the winter wheat belt. There was little outside interest, and the market was permitted to sag of its own weight until near the close, when there was a slight advance, in sympathy with corn. July wheat opened 14c off and sold at: 784c, 784

Corn opened well on higher cables and buying in Chicago, Weather conditions were generally so favorable that the upward movement was not well sustained. The market dragged until the report of the Illinois State Board of Agriculture came out. This stated that the weather had been too cool for corn, and that many fields were turning yellow. Everybody turned bullish, and there was a good demand for both active options in the last hour.

July corn opened ac up and sold at:

48%/\$48%c, 48%/\$48%c, 48%c, 48%/\$48%c, 45%c, 48%/\$48%c, 48%c, 48%c, 49% Receipts of wheat at St. Louis were 7,051 bu, of which 234 sks, and 6 cars local and 1 car through, against 47,566 bu, of which 236 sks, and 29 cars were local and 13 cars through, in 1992. through, in 1992.

Receipts of wheat at primary points were 243,600 bu, against 277,000 bu, in 1902, and shipments 135,000 bu, against 470,000 bu. Northwest received 206 cars, against 38 cars in 1902. Chicago received 39,000 bu. Clear-Ances, 43,000 bu.

Receipts of corn at St. Louis were 9,990 bu., of which 19 cars were local and 1 car through, against 29,765 bu., of which 25 sks. and 21 cars were local and 12 cars through, Receipts of corn at primary points were 15,000 bu., against 456,000 bu. in 1992, and shipments were \$51,000 bu., against 259,000 bu.
